Places of Interest to Visit by Bus

Bournemouth town centre offers good shops, theatres, cinemas and restaurants as well as 2,000 acres of parks and gardens for everyone to enjoy.

Upton Country Park and Gardens

Escape to the country in this unique park situated on the northern shore of Poole Harbour. Catch the 9 or 10 bus from Poole and enjoy the formal gardens, open parkland, shoreline trails and the centrepiece Upton House. Don't forget to visit the Peacock tearooms for refreshments before the bus ride home.

Poole Quay

local history or catching a crab! Hop on Route ONE from Poole bus or rail station direct to the Quay. Enjoy a harbour cruise to Brownsea Island or visit the lively pubs, cafés and restaurants nearby.

Christchurch Priory and Harbour

The impressive Priory Church has been a place of worship for over 900 years. Unwind with a pleasant stroll alongside the River Stour to the charming Quay. Take a boat trip across the harbour to the fishing village of Mudeford and enjoy its own quieter sandy beaches.

Sandbanks

Sandbanks is regarded by many as the best beach on the South Coast. These golden sands have now been awarded more Blue Flag awards than any other UK beach in recognition of the level of cleanliness, facilities and safe bathing waters available. Why not take the bus (open top in Summer) and avoid the car park queues?

been a trading port since Tudor times. The Quay has

something for everyone - whether your interest is maritime,

Take a stroll down Poole High Street which links the old town with the new and enjoy the varied shops, cafés and restaurants. At the north end of the High Street the indoor Dolphin Shopping Centre offers over 100 shops with many of the big-name stores open 7 days a week.

Real Time Information

Your local councils are working in partnership with bus operators to expand the popular Real Time Information system across the conurbation. There are two types of message that may be displayed:

Real time - times displayed in minutes eg. 2min

The system has identified a bus and will count down in minutes until your service arrives. When 'due' appears, the bus is less than a minute away so be prepared to signal clearly to the driver for the bus to stop.

Scheduled time - times displayed in 24 hour clock eg.15:35 This is an electronic version of the printed bus timetable. It shows you the time the

bus is scheduled to arrive and should be taken as a guide.

Real Time Information...at the bus stop

There are now over 250 electronic displays in the busiest bus shelters providing up to the minute information on departures as shown below.

Q. Is any information available for visually impaired passengers? A. Yes, most of the electronic displays can provide an audible announcement if required. This is activated by a special key fob. If you would find this useful, please contact your local council for further details.

to constantly estimate the arrival time of the bus.

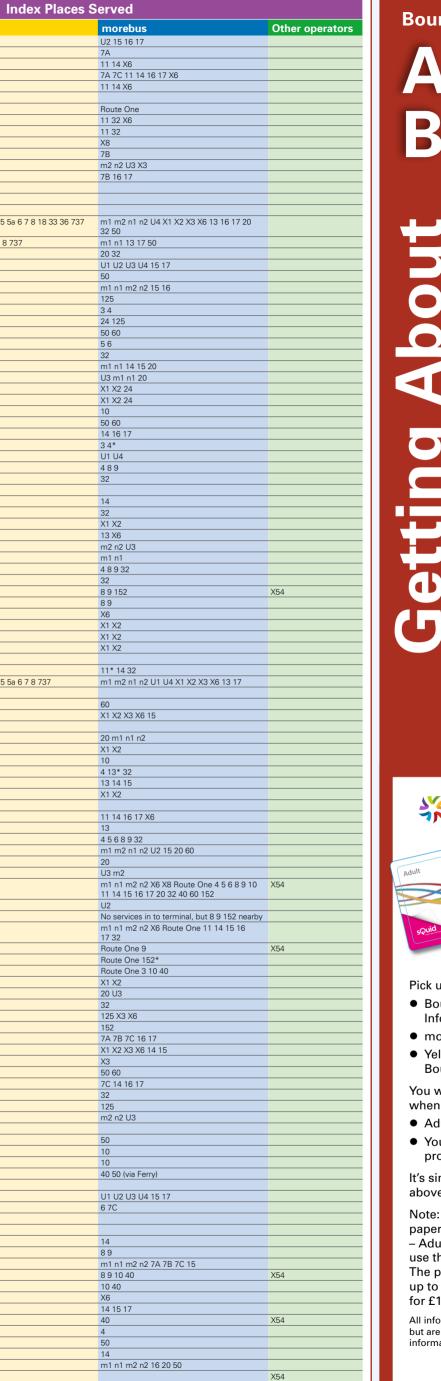

Q. What other benefits does the Real ime System bring? **A**. There is added security for bus drivers and passengers with a radio system linked to the operator's base. In addition, the satellite tracking of the buses enables the controller to see exactly where all the buses are - so if delays occur, action can be taken quickly.

Bookmark the page on your phone's web browser and you can view the bus times for your local stop without leaving vour home.
